S/MIME BR Audits

CAB’s aligned to support the following approach:

1. S/MIME BR related changes treated according change management procedure established between the CAB and the CA (ETSI EN 319 403-1, clause 7.10).

2. CABs support corresponding audits (point in time) of S/MIME BR related changes before Sept. 1st.

3. AAL and report latest to be issued three month after the last audit day.

4. CA undergoes regular S/MIME BR audit (period of time) throughout the next following audit period.

   This can easily be synced into the CAs general audit schedule to save effort and cost.

CA/TSP duties:

- be sure to get S/MIME BR caused changes discussed with your CAB and covered with a pit-audit by Sept. 1st, 2023 - as far as applicable: severity of change and CABs change mgmt. procedure.

- adopt ETSI TS 119 411-6 policy requirements on S/MIME as soon as released for the next audit!
